

Miami Business Telephone

Miami, Florida
(305) 669-6164

Miami Business Telephone, Corp. offers consultative services with AT&T / Windstream requirements that efficiently meet your needs. We are licensed & experienced to provide full installation and maintenance of all voice / data / fiber systems that you should require. MBT is committed to sustain the level of satisfaction that you, as a customer, expect and need.

MBT is State licensed for Low Voltage Electrical Work. We can successfully work any where in the State of Florida. No job is too big nor too small for us.

We can provide any complete cabling infrastructure for our customers voice (phone) and Data (computer) systems as detailed below:

- Voice (phone) & Data (network) Fiber Cables
- Category 5e, Category 6 & 6a Copper Cables installation and testing
- RG500, RG6 Cabling (CCTV)
- Structured Cabling Infrastructure Design
- Fiber Optic single mode and multimode installation and certification
- Cable Management Solutions
- Communication and IT Room Build out
- Low Voltage Permits
- Any outside plant / Riser / indoor out door cabling needed

MBT can also offer Exterior Conduit work required to deploy any new/additional AT&T/Other service provider lines (Metro E, T1, Fiber Optic) from the main underground line into customer facility.
